
The BMW Carsoft 6.5 SP1 Cracks.21 software update is now available for your car. It includes all the new improvements and features of the BMW Carsoft 6.4 version, which you may already be using, as well as compatibility with the latest factory-installed equipment (and all cars up to MY 2017), and fixes for some known issues in previous versions of BMW Carsoft 6.4! BMW continues to lead the way in intelligent vehicle technologies, providing drivers with peace of mind that their automobiles are operating at optimum level when on-the-go or in stationary mode when parked at home or work. BMW Carsoft 6.5 SP1 Cracks.21 is the latest generation in a series of software updates for BMW's interactive driving-related systems. It provides a variety of additional capabilities for optimizing the comfort, safety and security of drivers and passengers, plus full support for all factory-installed equipment in BMWs up to MY 2017. BMW Carsoft 6.5 SP1 Cracks.21 features a navigation system with a full 3D map display, from which you can easily find any desired address or intersection in Germany or anywhere in Europe, including optimum routes for speed limits and traffic restrictions (see example below). In addition to its map function, BMW Carsoft 6.5 SP1 Cracks. 21 provides a voice-activated phone system that will dial any number in the BMW Carsoft 6.5 SP1 Cracks.21 contacts list, hands-free! Additional features of BMW Carsoft 6.5 SP1 Cracks.21 include: BMW Carsoft 6.5 SP1 Cracks.21 offers new features for the BMW Gesture Control system, which replaces buttons on your steering wheel with sensitive pressure sensors that allow you to control various functions of your vehicle by touching different areas of the steering wheel or by simply gesturing with your hand while holding onto the steering wheel (see example below). BMW Carsoft 6.5 SP1 Cracks.21 offers a great deal of additional information and entertainment for rear seat passengers, including:

BMW Carsoft 6.5 SP1 Cracks.21 offers numerous improvements and features for technicians and dealers, including:

BMW Carsoft 6.5 SP1 Cracks.21 works with all cars from MY 2017 (with factory-installed equipment) but requires BMW Carsoft Update Manager (6.2) or later to work with older cars (see example below). The BMW Carsoft 6.5 SP1 Cracks.21 software update comes with a fully functional 30-day demo version which you may download from [www. bmw-soft.com](http://www.bmw-soft.com) and install on one of your test computers (either a PC or Mac). BMW Carsoft 6.5 SP1 Cracks.21 is compatible with Windows 7*, Windows 8*, Windows 10* and macOS*. Note: Previous versions of BMW Carsoft 6 included a special version for dealers, which they used in the workshop to communicate with a customer's car in order to diagnose problems or perform service in the vehicle itself. This version has been discontinued in BMW Carsoft 6.5 SP1 Cracks.
